Key words index

3-D mapping 23
3-hydroxy-3-methylglutaryl-coenzyme A reductase 388
3rd degree atrioventricular block 39
8-mm vs cooled tip catheter 37

A
ablation 23
– of atrial fibrillation 28
abnormal low voltage areas 40
abnormalitiea 468
abortifacients 163
abortion 163
acetylsalicylic acid 7
actinomycosis 364
activity 212
acute effect on ventricular dyssynchrony 33
adenosine 259
adernoleukodystrophy protein 463
adjuvant treatment 100
adrenoleukodystrophy 463
adrenomyeloneuropathy 463
adult patient 371
adverse drug reaction 348
aging 212
alanine aminotransferase 522
Althaea officinalis 93
aminotransferase 522
amiodaron 22
amiodaron-induced thyreotoxicosis 22
analgesia 184, 359
analysis of the cost of therapy 22
anastomosis Roux-en-Y 475
anatomy 533
anesthesia 335
angina pectoris 33
ankle-brachial index 89
anomaly 104, 422
anterior myocardial infarction 49
anthropometric parameters 481
antiarrhythmic agents 48
antibody 65
anti-HBc-seropositivity 65
antioxidants 385, 489
antioxidative enzymes 56
antiplatelet agents 7
anti-stress procedures 189
antitussive ectivity 93
aortic valve annulus 437
aortofemoral reconstruction 312
apolipoprotein 179
apple 382
Arctium lappa 93
arginine 283
aromatase inhibitors 271
arrhythmia 14, 29, 40
arrhythmic storm 44
arterial hypertension 301
artery 14
ascites 158
aspartate aminotransferase 522
aspirin 7
– resistance 7
asymmetric influence of autonomic nervous system 26
ATC classification 348
atherosclerosis 89, 179, 417
atrial fibrillation 22, 23, 27, 28, 31, 37, 43, 45, 52
– – complication 50
– – detecting 31
– physiological correction 14
– septal defect sinus venosus type 14
atrioventricular nodes 26
atypical cysts 475
auricular pseudocyst 471
autoimmune disease 227

B
baroreflex sensitivity test 41
B-cell 459
benign liver tumor 229
B-group vitamin 510
bio-antiglaucomatic 283
biological markers 170
bipolar radiofrequency ablation 27
birth control 163
biventricular pacing 21, 35, 446
bleeding 223
body mass index 207
Bologna declaration 375
bone 141
Borrelia burgdorferi 399
bradykinin 174
brain 422, 529
– injury 329
– natriuretic peptide 170
breast cancer 100, 271
bronchopneumonia 246
bronchoscopy 364
burn injury 359

C
Caesarean section 526
cancer 218, 246, 292
– mortality 478
carbon monoxide 255
cardiac arrhythmia 46
– centre 34
– events 301
– pacing 41
– resynchronization pacing 48
– resynchronization therapy 29, 41, 446
– surgery 3, 501
cardiopulmonary bypass 501
cardiorenal syndrome 169
cardiovascular disease 7, 403, 417
– mortality 478
– risk 246
catalase 56
catheter ablation 24, 26, 32, 37, 38, 43, 44
– mesh mapper 50
Caucasian primary school pupils 481
cavity cancer 292
cavo-tricuspid isthmus 32
CD21 368

CD35 368
cerebral palsy 406
– stimuli 529
chemoprevention 271
chemotherapy 218
child 3, 184, 200, 359, 437, 501
Chlamydia myocarditis 50
cholesterol 297, 388
chronic atrial fibrillation 23, 24, 38
– heart failure 21
– hepatitis C 522
– hepatitis C 65
– myeloid leukemia 433
– obstructive pulmonary disease 83, 255
– renal failure 506
– vitamin C deficiency 417
chylothorax 3
cigarette smoking 255
clinical practice 481
clofibrate 56
coeliac disease 519
colon cancer 354
colonoscopy 443
color dupplex sonography 89
colorectal cancer 246, 443
computed tomography 414
congenital choledochal cyst 475
– heart defect 29, 316
– – disease 29, 170, 454
congenitally corrected transposition 14
congestive failure 170
conjunctival nevus 287
conservative treatment 409
consonants 112
contraception 163
contraceptives 163
contractile response 174
contribution of transthoracic impedance cardiography 39
coronary artery disease 297, 301
cough 489
craniofacial parameters 481
C-reactive protein 501
criteria of rectal ca 149
critic acid-induced coigh 489
Crohn disease 307
CRT 29
cryoenergy catheter ablation 35
cytogenetic analysis 433
cytokines 128

D
D-amino acid 56
damped sine wave 30
death 239
defibrillator 47, 48
dendritic cell sarcoma 368
dermatitis herpetiformis 519
detoxification 393
diabetes 297
diagnotic criteria 481
diet 265
different methods of atrial fibrillation ablation 31
– types of heart rhythm disorders 25
– – – ventricular arrhythmias 49
digital photography techniques 533
diphthongs 112
documented arrhythmia 43
dolichoectasia 456
Down syndrome 70
Drug Information Center 348
drug interactions 348
Druginfo 348
D-transposition 14
dual chamber PM 39
– pacing 38
ductus hepaticus 475
dura mater 104
dying 239
dysplasia of the hip 251

E
early recurrences of atrial fibrillation 51
echocardiography 437
ECTS 375
education system 375, 379
efficiency of 10 % aminoacid 283
Egyptian children 75
electrical storm 47
electrophysiological study 45
electrophysiology 43
ELISA 138, 399, 414
encephalopathy 75
endobrachial actinomycosis 364
endochondral pseudocyst 471
endomyocardial biopsy 47
endothelaemia 403
endothelial dysfunction 297
endothelin-1 174
end-stage renal failure 122
enopterin 501
enterovesical fistulas 307
entrapment 141
enzymes 56
epibulbar melanoma 287
epidemiology 417
erythema migrans 399
erythrocyte 70
Ethical Code of Slovak Anatomical Society 533
examination 425
expired-air carbon 255
explorative laparotomy 309
extra-ovarian neoplasm 309

F
Fabry disease 169
Fallot tetralogy 14
family 212
fatty acid 354
– – oxidation 75
feasibility study 52
female obesity 207
femoral osteotomy 406
fenestration closure 344
fiberoptic bronchoscopy 364
fibrinogen 297
fistula 307
flavonoids 489
flexor system 232
fluid therapy 359
follicular dendritic cell sarcoma 368
Fontaine operation 344
– procedure 14
formal education 379
free peritoneal fluid 309
– radicals 393
function the left and right atrium 38

G
gastric cancer 218
gastroschisis 526
gender difference 128
– population 265, 510
– practitioners 212, 425
genetic polymorphisms 37
geriatrics 212
gland surgery 269
Glasgow Outcome Score 329
glutathione 56
– peroxidase 56
glycine 283
grading 522
great arteries 14
guidelines 388, 425
Guinea pig 489
Gypsies 207

H
head injuries 144, 329
head-up tilt test 259
health 382, 478
– care 161, 227
– determinants 212
health-related quality of life 36
heart defect 316
– failue 446
– syndrome 14, 203
Helicobacter pylori 506
hemodialysis 122, 506
hemodynamic monitoring 359
– optimization 35
hemoptysis 364
hemorrhoids 223
hepatitis B 65
hepatitis C 522
HER 2 100
hernia repair 335
heroin addiction 393
high density lipoprotein 297
hip 251
– instability 406
HLA typing 519
homeostasis 393
homocysteine 510
hospitalist 117
human myometrium 174
– small bowel 516
hydrogen peroxidase 56
hydrothorax 158
hypercholesterolemia 417
hyperoxia 489
hypertension 32
hypofibrinolysis 279
hypoketotonic hypoglycemia 75
hypoplastic heart syndrome 14
– left heart syndrome 203

I
iatrogenic damage 269
ICD implantation in children
idiopathic ventricular ectopic beats 48
IgG antibodies 506
ileum 516
immune system 144
– – disorders 320
immunofluorescence 399
immunohistochemistry 368
immunohistopathology 459
immunology 3
impact of completeness of revascularization 40
implantable cardioverter 47
– – defibrillator 27
implantation LV pacing leads 41
inborn errors 75
inclination angles 481
incontinence 189
indication of rectal ca 149
infection 320, 506
– of the implanted PM/ICD 34
inflammation 255, 307
inflammatory response 335
infrared coagulation 223
inguinal hernia 335
inhaled corticosteroids 83
in-patient 117
insulin 207
interferon 65
intimo-medial thickness 89
intraabdominal infection 320
intracardial ultrasound 37
intracartilaginous cyst 471
intraocular pressure 283
invasive electrophysiology in children 34
ischemia syndrome 385
isolation of pulmonary veins 50
IVS-novel pacing 42

J
jejunum 516
joint instability 406

K
karyotyping 433
ketamine 184
kidney transplantation 385

L
laparoscopic fenestration 324
laparostomy 320
lateral pterygoid 141
– ventricles 422
Lazarevski section 189
LDL-cholesterol 388
left atrial tachycardias 28
– ventricle ejection 446
left-sided obstructive heart disease 316
leptin 122
lesion 409
Lichtenstein 335
life 239
– expectancy 478
– style 212, 354
lipid peroxidation 393
lipids 207
lipofuscin 70
lipoprotein 179, 417
liquour space 107
liver 522
– tumor 229
local anesthesia 335
– excision 149
– recurrence 149
long-term care 161
lung 364
lymph node 368
lymphocyte 122
lysine 283

M
Macedonian children 179
MADIT II 41
magnesium 506
magnetic resonance imaging 276, 414
malignant ventricular arrhythmias 47
malondialdehyde 70
mandibular nerve 141
mechanically-induced cough 489
medical education 375
medicine 379
melanoma 287
metabolic encephalopathy 75
– syndrome 138, 279, 425
metabolism 75
migration percentage 406
mitral valve surgery 27
molecular diagnosis 133
monophasic biphasic shock 30
morphology 533
– of the left and right atrium 38
mortality in long-term observation 48
– of CRT 45
movement mechanism 529
MSCT angiography 456
muscle 133
myocardial infarction 44
– – with ST elevations 40
– ischemia 170
– revascularization 301
myometrium 174

N
natriuretic peptide 170
NavX vs CARTO system 23
neck 368

negative prefixes 233
neonatal screening 251
neonates 316
neoplasm 309
nervus laryngeus recirrens 269
neurocysticercosis 414
neuropsychological outcome 203
neuroradiology 414
neurosurgery 107
nitroglycerine 259
N-methyl-D-aspartate 184
nodular lesion 459
normal aortic dimensions 437
Norwood operation 203
nuclear magnetic resonance 153, 276
nutrition 354, 382, 510

O
obesity 207, 425
obstructive pulmonary disease 83, 255
– sleep apnea 46
office procedures 223
old age 212
optimal atrioventricular interval 38
– dynamic atrioventricular interval 39
– pacing 46
oral cavity 292
ossification 141
osteotomy 406
outcome 329
oxidative stress 56, 393
oxytocin 174

P
pacing in hypertensive patients 32
palliative care 239
palmytoyl 56
partial anomalous pulmonary venous return 14
– negation 233
passive fixation pacing lead 42
patient safety 117
– right 495
pay for performance 117
PCR analysis 133
peach-tree gum 93
pelvic organ prolapse 189
– osteotomy 406
– tumor 158
pericardial effusions 324
pericarditis 324
perinatal traumatism 526
perioperative risk 246
peritonitis 320
peroxisomal disorders 463
persistent atrial fibrillation. 30
pharmacological treatment 83, 301
pharmacotherapy 425
phenotypes 174
Philadelphia chromosome 433
photocoagulation 223
PICCO 359
plasma concentration 265
– magnesium 506
platelet hyperactivity 279
pneumothorax 200
polymorphic ventricular tachycardia 44
polysaccharides 93
post long pause overdrive pacing 51
posterior horn 422
postoperative analgesia 184
– care 454
precocious puberty 340
pre-emptive analgesia 184
prehospital care 371
premature breast development 340
– thelarche 340
preoperative diagnosis 149
preservation injury 516
prevention 212
– of early recurrences of atrial fibrillation 51
– – the atrial fibrillation 21
primary acquired melanosis 287
– care hospital 316
– cutaneous marginal 459
– health care 425
– prophylactic indications 27
– Sjögren syndrome 227
procalcitonin 501
prognostic factors 301, 403
pronounciation 112
prostaglandin 174
prostate-specific antigen 55
prosthetic infection 312
prothrombotic state 279
pterygospinous ligament 141
puberty 340
public awareness 493
– services system 161
pulmonary disease 255
– vascular resistance 454
– vein isolation 31
veins 50

Q
Q wave evolution 40
QT dynamicity 40
quality improvement 117
quickopt algorithm 35

R
rabbit 283
radiotherapy 218
rapid atrial pacing efficacy 21
reactive oxygen species 385
real-time dominant frequency mapping 52
reccurent arrhythmias 23
reconstructive surgery 107
rectal cancer 149, 354
rectilinear biphasic shocks 30
redox potential 70
reductase inhibitors 388
reliable electrograms 21
renal failure 122, 506
renin-angiotensin system 37
repeated ablation 23
reperfusion syndrome 385
reversative prefixes 233
reverse epidemiology 122
RF-ablation 48
rheumatoid arthritis 227
ribavirin 65
right ductus hepaticus 475
– ventricle 46
– – outflow tract arrhythmia 40
risk analysis 45
– factors 203
– – of atherosclerosis 89
RVOT-novel pacing 42

S
sacral hiatus 468
sacrum 468
sarcoma 368
secondary prevention 301
sedation 359
senior age 212
sepsis 320
septal pacing 33
serotonin 516
serum aminotransferase 522
– leptin 122
– Reg-I? 138
severe head injuries 144
– impairment of left ventricle 49
short chain fatty acids 354

short-term effects of cardiac resynchronization therapy 44
siblings 519
sick sinus syndrome 38
sildenafil 454
sinotubular junction 437
sinus nodes 26
– rhythm 45
sinuses 104
– of Valsalva 437
site of death 239
Sjögren syndrome 227
skull 104
– base injuries 107
sleep apnea 46
Slovakia counties 478
small bowel transplantation 516
social care 161
sociology 478
somatosensory-evoked potential 153, 276
some pitfalls 41
sonography 89, 251
specialisation study 379
spectral analysis of signal in sinus rhythm 31
spina bifida 468
– anesthesia 335
– cord 529
– muscular atrophy 133
spine 468
spondylodiscitis 153
spontaneous pneumothorax 200
squamous cell carcinoma 292
staged lavage 320
staging 522
stakeholder approach 495
stereotaxy 529
stratification of sudden cardiac death 41
stress 489
– reaction 144
– urinary incontinence 189
structural changes in left atrium 24
student mobility 375
study program 375
substrate ablation 31
suburethral duplication 189
sudden cardiac death 41, 51
sudden death 409
suitable marker 138
superior vena cava isolation 31
superoxide dismutase 56
supraventricular tachycardias 26, 35
surgery 218, 269
surgical treatment 409
symptomatic idiopathic ventricular ectopic beats 48
syringomyelia 276
system extraction 34

T
tachycardia 35
tamponade 324
taurine 283
teacher mobility 375
tetralogy of Fallot 14
TH2 dominance 144
thoracic outlet syndrome 429
– surgery 200
thromboxane 7
thyroid gland 269
timoptol mixture 283
tinnitus 456
tissue regeneration 138
total antioxidant capacity 393
– – status 335
– cholesterol 388
transcatheter occlusion 344
transesophageal atrial pacing 45
transplantation 385
transthoracic impedance cardiography 38
transvenous electrode implantation 21
trastuzumab 100
trauma 128, 371
treatment of breast cancer 271
– strategy 47
tuberculosis 153
tumor 158, 229
– cell 368
type 2 diabetes 297
typical atrial flutter 32

U
ultrasensitive measurement 55
urate activity 56
urgent challenge 161
uterus contraction 174
utilisation of multi-polar mapping 50

V
vacuum assisted closure 320
– sealing 320
– supported laparostomy 320
vaginal reconstructive surgery 189
– suspension 189
variations 104
various pacing modes.36
vascular damage 403
– prosthesis 312
vasodilator 454
vasospastic angina pectoris 33
vasovagal syncope 37, 259
VDD-pacing 42
vegetarians 265, 510
veins 104
venous sinuses 104
ventricular dyssynchrony 33
– ectopic beats 48
– repolarization parameters 49
– tachycardias 33
vertebrobasilar artery 456
vertex epidural haematoma 409
very long again fatty acids 463
video-assisted thoracic surgery 200
virtual colonoscopy 443
vitamin B 510
vitamin C 265, 417
vowels 112

W
Warden operation 14
Western blot 399
white-blood cell count 122
Wistar rats 56
WPW syndrome 45

Y
young adult 437

Z
zone B-cell lymphoma 459
